

Universität Hamburg

DER FORSCHUNG | DER LEHRE | DER BILDUNG

Faculty/Department: Psychology and Human Movement Science/
Seminar/Institute: Biological Psychology and Neuropsychology

Universität Hamburg invites applications for a Research Associate in accordance with § 28 (1) of Hamburg's Higher Education Act (HmbHG*). The position commences on September 1..

It is remunerated at the salary level TV-L 13 and calls for 19,5 hours of work per week.

The short-term nature of this contract is based upon § 2 of the Academic Short-Term Labor Contract Act (WissZeitVG). The initial fixed term is three years.

The University aims to increase the number of women in research and teaching and explicitly encourages women to apply. Equally qualified female applicants will receive preference in accordance with Hamburg's Higher Education Act (HmbHG).

Tasks:

Associates will be expected primarily to teach and conduct research. The associate will also have the opportunity to pursue further academic qualifications, in particular a doctoral dissertation. At least one-third of set working hours will be made available for the associate's own academic work.

Area(s) of Responsibility:

The Biological Psychology and Neuropsychology (BPN) unit of the University of Hamburg (Germany) seeks for a PhD candidate with a background and interest in experimental psychology (particular multisensory processing in humans) and cognitive neuroscience. The position is funded by the University of Hamburg (0.5 E13, §28(1)) and comes with a teaching requirement of 2 h/week (SWS). The PhD project will be in multisensory processing and neuroplasticity (see research of BPN).

Requirements:

A university degree in a relevant subject. The required qualifications are: Master degree in psychology, neuroscience or related discipline, background in experimental psychology, research interests in multisensory processing and neuroplasticity, knowledge in EEG/ERP or (f)MRI methods are of advantage. Moreover, welcome is experience in eye movement recording or cognitive modelling. A good command of English is essential.

Severely disabled applicants will receive preference over equally qualified non-disabled applicants.

For further information, please contact Prof. Dr. Brigitte Röder (brigitte.roeder@uni-hamburg.de) or consult our website at www.bpn.uni-hamburg.de.

* Hamburg Higher Education Act

** Full-time positions currently comprise 39 hours per week.
