University	UHH University of Hamburg
Institute / Facility	Institute of Psychology / General Psychology
Category	Student research assistant

Offer

Titel	Student research assistant in teaching and research / general psychology
Place	Von-Melle-Park 11, 20146 Hamburg Deutschland
Description	<p>The student research assistant will support the research of the group Allgemeine Psychologie and help with organisational tasks.</p> <p>Concrete tasks in research would involve (literature research), recruiting participants for studies and conducting these experimental (and neuroscientific) studies. If interested some tasks could involve the programming of computer-based tasks and supporting the statistical data analysis.</p> <p>Regular participation in the team meetings (in english) would be appreciated.</p> <p>We are expecting a good understanding of the english language in writing and speaking.</p> <p>There might be some tasks in the area of teaching involved. Here the department would require support during exams as well as contact with students (f.e. through providing studying material).</p>

Expectations	<ul style="list-style-type: none"> • Interest in research questions of general psychology and cognitive neuroscience • Experienced MS office skills • Programming skills (e.g., R, Matlab, Python) would be appreciated but are not required → the motivation to acquire these skills is required • Very good German and English Skills in writing and speaking • Flexibility and reliability • Initiative, engagement and self managed working • Good communicative skills, joy in team work and communication, sensibility and politeness towards students and teachers
Benefits	<ul style="list-style-type: none"> • Practical experience in research and with the planning and conducting of studies • Very beneficial for your CV • Friendly, open team with an informal atmosphere and flat hierarchies • Flexible working hours and possibility for partial work in Home-Office • Practical extension of theoretical input • Possibility to build contacts in research
Type of employment	36 h - 43 h per month
Period of employment	6 months with possibility of extension
Start	1. January 2024
